
Swegon AB as a producer of chilled beams confirms following.

Swegon AB passive and active chilled beams are following these standards:

- OM-12-2013** The Eurovent Certification programme for Chilled Beams
- EN 14518.** Ventilation for buildings – chilled beams - Testing and rating of passive chilled beams
- EN 15116** Ventilation in buildings – chilled beams - Testing and rating of active chilled beams
- ISO 3741** Acoustics – Determination of sound power levels and sound energy levels of noise sources using sound pressure – Precision methods for reverberation test rooms (ISO 3741:2010)
- ISO 5135** Determination of sound power levels of noise from air-terminal devices, air-terminal units, dampers and valves by measurement in a reverberation room.
- ISO 5167** Measurement of fluid flow by means of pressure differential devices inserted in circular cross section conduits running full.

Swegon AB production is certified by standards **ISO 9001** and **ISO 14001**.
